

ANJALI KANAKAN

Senior Front End Developer | Trivandrum, Kerala

Phone: 9846871620 | Email: anjalikrishnaleela@gmail.com | Portfolio: <https://anjalikanakan.github.io/Portfolio>

PROFESSIONAL SUMMARY

Senior Front End Developer with over 7+ years of experience specializing in HTML5, CSS3, Bootstrap, JavaScript ES6+, React.js, and jQuery for building responsive, accessible, and high-performance user interfaces. Proficient in React.js, Redux, Angular.js, React Admin, Material UI, and Core UI. Experienced in Drupal CMS front-end development, multilingual (English/Arabic) web development, WCAG accessibility standards, CI/CD pipelines, Agile/Scrum methodologies, and AI-assisted development tools including ChatGPT, GitHub Copilot, Claude, Antigravity, and Google Gemini.

WORK EXPERIENCE

Appstation Pvt Ltd – Senior Front end Developer (June 2024 – Present)

- Developed scalable and reusable UI components using React.js, Redux, Bootstrap, Pug, JavaScript ES6+, HTML5, CSS3, and Tailwind CSS.
- Built high-performance multilingual web applications supporting English and Arabic layouts.
- Integrated REST APIs and implemented dynamic front-end functionalities using React.js and jQuery.
- Engineered scalable front-end architectures using Pug, SASS (mixins/functions), and component-based design approaches.
- Implemented interactive animations and transitions using GSAP and CSS animations.
- Ensured WCAG accessibility compliance and optimized application performance using Lighthouse.
- Developed responsive Chatbot UI interfaces and mobile-friendly web applications.
- Contributed to Drupal CMS front-end development including custom theming and template customization.
- Collaborated with backend and UI/UX teams in Agile/Scrum environments for feature development and deployment.
- Managed version control and deployment workflows using Git, Azure DevOps, Jira, and CI/CD pipelines.

Links 4 Engineering Pvt. Ltd – UI Developer (September 2021 – May 2024)

- Developed rich UI components using React.js, React Admin, Material UI, Core UI, HTML5, CSS3, Bootstrap, JavaScript ES6+, and jQuery.
- Translated business requirements into polished and responsive user interfaces.
- Designed UI screens, wireframes, and interactive prototypes using Adobe XD.
- Converted wireframes and mockups into functional web applications.
- Optimized websites for speed, scalability, accessibility, and brand consistency.

Aatoon Solutions Pvt. Ltd – UI Developer (June 2019 – September 2021)

- Coordinated with UX/UI teams to deliver cross-browser compatible web applications.
- Integrated REST APIs using Angular.js and Ajax.
- Built functional web applications using JavaScript ES6+, HTML, and CSS.

Wahy Lab Solutions – Web Designer (August 2018 – May 2019)

- Developed end-to-end responsive websites using Bootstrap.
- Debugged and resolved front-end issues to enhance usability.
- Designed company logos and SEO-friendly interactive interfaces.
